Just some of the benefits of having a table in your home:

- **Keep an eye on your kids** – *make your house the cool house on the block*
- **A great way to entertain** – *you may have trouble getting your guests to leave*
- **What it teaches kids** – *teach your kids geometry; they won't even hate you for it*
- **An icebreaker when having folks over** – *you don't have to sit and stare at each other to and try to think of something to say*
- **Your table is set** – *convert the pool table into a ping-pong table, a dining room table – or leave it "as is" and have a great place to wrap gifts and fold the laundry!*
